NATHANIEL (NATE) POWELL

BUSINESS / SALES / PRODUCT

n2powell@uwaterloo.ca | github.com/Tophacks | quadmates.ca
University of Waterloo | Co-operative undergraduate studies | 2025-present

PROFILE

Founder and product builder with experience closing external engineering sponsorship agreements, coordinating technical projects, and communicating with commercial partners. Incoming Infosys InStep computer engineering intern.

EXPERIENCE

UW Orbital | Business Communications and Finance

2026-present

- Negotiated corporate funding and manufacturing support for a satellite engineering team, including software and hardware resources.
- Resolved a sponsor's competing production priorities through design documentation and compromise, protecting an ongoing partnership.
- Coordinated external communications, proposals, and engineering documentation for sponsor review.

Quadmates | Founder and Product Developer

2026-present

- Founded and launched a student networking and study-partner product; set product direction and coordinated collaborators.
- Balanced implementation constraints with user feedback, product reliability, and outreach.

INFOSYS INSTEP | Incoming Computer Engineering Intern - AI Agent Engineering

Jan-Apr 2027 | Bengaluru, India

- Selected for an upcoming internship with the Infosys CTO office, focused on AI agent engineering and enterprise workflows.
- Planned internship scope includes AI-assisted business-process automation; project deliverables will be updated after the role begins.

SELECTED PROJECTS

Additional professional experience

City of Ottawa: lifeguard and swim instructor; safety, instruction, and public-facing communication.

TECHNICAL AND PROFESSIONAL SKILLS

B2B outreach, negotiation, stakeholder management, product strategy, Microsoft Excel, Python, SQL, React, technical communication

Infosys is an incoming position; no internship deliverables are claimed as completed.
